# Unity Build

*Habitat SCNJ brings people together to build homes, community, & hope.*

## every one of us deserves a safe place to call home

Since 1987, Habitat for Humanity of South Central New Jersey has provided permanent housing solutions to local families in need of a helping hand as they build strength, stability, and self-reliance through shelter.

Our Affordable Homeownership Program helps families break the cycle of poverty and provide themselves and their loved ones with a safe place to call home by purchasing a home built by Habitat with an affordable mortgage based on 30% of their household income. To date, Habitat SCNJ has built 287 homes.

Habitat also invests in neighborhoods by partnering with residents and organizations to rejuvenate homes, strengthen community connections, and help them regain stability through our Neighborhood Revitalization Program. A key focus is providing repairs to homeowners to make their homes safe, modern, accessible, efficient, and beautiful at little to no cost. So far, Habitat SCNJ has provided 284 home repairs.

## what is unity build?

Local houses of worship are joining Habitat SCNJ and the First Presbyterian Church of Hamilton for a unique, hands-on day of service. Volunteers will construct the framing for a new Habitat home, one piece at a time. Support for this event will allow Habitat to purchase materials needed to complete the project and make a local family's dream of homeownership a reality.

## why sponsor?

Unity Build is a wonderful event where we foster meaningful relationships as we piece together the building blocks of a brighter future for a local family in need. Last year, this event welcomed more than 100 volunteers from local houses of worship, faith-based organizations, and the community. Having your support will not only further the home's progress, but it will provide you with name recognition through our social media posts and press releases and give you an opportunity to connect with others in the community.
